

## Mission

Establish and sustain a national outreach and education program to encourage individuals and organizations to actively preserve their digital content, building on a collaborative network of instructors, contributors, and institutional partners.

## Objectives

- Define education needs
- Review existing curricula
- Define core principles
- Build an instructor base
- Evaluate delivery options
- Develop outreach materials for multiple audiences

## Digital Preservation Training Activities

Currently, digital preservation training programs exist in a few parts of the country in the form of: conferences, workshops, graduate degrees, professional certificates, internships, and online learning. However, many parts of the country still lack sufficient digital preservation training. DPOE's goal is for digital preservation training to occur in every state in the U.S.

## Preliminary Training Needs Assessment Survey

Nationwide Online Survey  
From June 14 to July 8, 2010

**233** Participants  
111 Libraries / 78 Academic Libraries  
48 Museums / 52 Archives

## Survey Findings

### Participants' Top Training Needs Ranking

### Participants' Training Format Preference

### Participants' Collected File Types

The majority of the participants had digital images, PDFs, and audio visual files in their holdings.

### Common Obstacles to Digital Preservation

#### Quotations from the Survey

"Practical, down-to-earth, how-to knowledge is what is needed most. I am very tired of theory."

"Training and/or education for the middle and upper management regarding how digital preservation works...would be greatly beneficial."

## Top Priorities

- **Funding model:** identify and establish funding models including designated funding, grant opportunities, institutional and individual partners
- **Train-the-trainer:** identify a near-term opportunity to launch the train-the-trainer program
- **First online offering:** develop a basic online course to address needs identified in the survey, develop experience with online courses, contribute to raising awareness
- **Steering committee:** establish a committee to provide advice and guidance to build DPOE and coordinate with related national and international education and outreach initiatives

## Strategic Approach

To Recruit and Support Target Audiences
